

Equitable Employment Practices

A Plan to Change Conditions in the US

– so you can
work when and where you want,
and do what you want to do

for a presentation
at the
College of Complexes
by
Charles Paidock

Two Part Presentation

1. an assessment of free market capitalism

2. changes not simply to reform but replace it altogether

Current employment policy and practices in the US are one large, unfair, chaotic mess

Stratification is an inherent feature

Totally
unqualified
and corrupt
individuals
like this are
in charge

Employees are excluded from the decision-making process

The relationship is adversarial and confrontational

Abuses in the system of employment
are long-standing and widespread

Excessive abuse of management authority has resulted in civil disobedience

Constant Toxic Competition is an inherent feature

Workplace Loyalty is Dead

Great Resignation

because employees are treated transactionally
and as fungible, easily substituted, the result is
lower productivity and high turnover

The Rise and Fall of Good Jobs
in America

Some economists have described
the Great Resignation as akin to a
general strike,

The Great Resignation was a major economic trend where a large number of employees voluntarily quit their jobs, particularly in the United States.

It was driven by factors such as low pay, a lack of career advancement, poor work environments, and inflexible work policies.

The nature of the
workplace is
changing

Robot
Manager

New tools for monitoring employees can track every keystroke or mouse movement, how quickly you speak on the phone, or use the computer's camera to track your eyes

**Supervisor to Employee
Ratio should be Zero**

Entire industries are built on
exploitation as their business model

Little or nothing is done to curb the incidence of wage theft (tips, overtime)

Failure to provide a “living wage” for those both employed + unemployed

**Mass layoffs
have reached
1.1 million this
year**

**Larry Ellison became
\$100 billion richer in a
single day - enough to
fund the entire food
stamp program for a year**

2025 holiday season spending is driven almost entirely by high-income purchasers

42 million people rely on food stamps, cuts over the next decade that will reduce or eliminate eligibility for half of all recipients

The USDA suddenly announced it would no longer issue its annual food insecurity report, calling it “subjective, liberal fodder” that does “nothing but fear monger”

The White House is also refusing to release the full October unemployment report

HUD released a study released that found more than 770,000 people sleeping unhoused on a single night, the highest number ever recorded

Conditions call
for structural
change -
and not simply
incremental
improvements in
the conditions of
employment

Disparities in wealth are on the increase

Free Market Capitalism Does Not Work almost all companies go bankrupt and close within the first one to ten years

employees are cast out with no
means of support

Mistaken Assumption There Has Been
Continuous Improvement in the Standard of
Living as a Result of Free Market Capitalism

Since 1790 there have been as many as 47
economic Depressions / Recessions in the
United States

1807 – 1814

1837 – 1844

1893 – 1898

1929 - 1941

Tariffs increase consumer prices, and
produce only low-paying, repetitive,
physically demanding work

The Youth see no
future for
themselves in the
present system

Starbucks Workers
United, a division of
SEIU International,
now represents more
than 12,000
employees at some
640 US locations.

Starbucks Chief Executive Brian Niccol was reportedly
compensated \$95.8 million in 2024

Employees
must listen
to their
Corporate
Masters

Is there anyway to bring about
change to how we work?

Yes –

by adapting “Equitable Employment”
- everyone will work where they want,
and do what they want to do

The “Rights of Employees in the Workplace”
should be passed as an omnibus bill

Protected Activities - amicable free speech extending to robust debate, along with freedom of association on the clock, are essential features

A central
committee of
each company
will be set-up
to make
decisions on
large-scale
operations

and resolve
individual,
group or
institutional
grievances
through
mediation

Any reorganization or re-alignment of the corporate structure / workforce is permitted, but must be outlined and approved in advance by the Dept. of Labor

So-called “Partnership” schemes, in which employees could send representatives to meetings, were a step in the right direction, and employees were told they were now “associates”

but management retained the right to hire, assign work, control technology, etc

All companies within an industry
should adopt a similar organizational
structure to facilitate transfers by
employees

All companies must submit a plan for elimination of all supervisors and conversion to coop units with no hierarchal stratification

In select instances managers may be charged and prosecuted for past arbitrary and capricious, criminal acts, prohibited personnel practices

Penalty for those involved in an ongoing criminal enterprise ...

RICO violations can result in severe criminal penalties, including imprisonment and forfeiture of assets, and allow for civil lawsuits where victims can seek treble damages.

All units will conduct internal affairs using standard bylaws aimed arriving at a consensus, grant all requests for a reasonable accommodation

All units at a common situs will have
the same basic size, purpose
and mission

In operations with team leaders, all employees are equal to the highest leader in the room

Annual
government
on-site
inspections for
compliance
with
employment
law, rule and
regulation

This Factory has
Passed Inspection
for Equitableness

This company has
been inspected for
compliance with
U.S. government
equitable
employment
practices

**No evidence of PPPs
Prohibited Personnel
Practices**

The workforce can be deployed to where it is needed through national vacancy announcements, applications based on personal choice

Requests for Lateral Transfers will be Approved to Minimize Hardship, Accommodate Preferences

For example, from a low to a higher scoring workplace

Merit staffing – restricted to only qualified applicants / selection panels rank applicants instead of deciding official / composed of impartial personalist or employees at large

Standard application (with one page blank) with the person's knowledge, skills, and abilities (KSAs) or core competencies

The image shows a close-up of a person's hand, wearing a blue and white striped shirt, using a black Sharpie marker to fill out an 'Employment Application' form. The form is white with black text and lines. The title 'Employment Application' is prominently displayed in a large, bold, sans-serif font. Below the title, there is a section for 'Personal Information' which includes fields for 'Full Name' (with sub-fields for 'Last', 'First', and 'Middle'), 'Address' (with sub-fields for 'Street Address', 'City', 'State', and 'ZIP Code'), 'Phone', and 'Social Security No.'. To the right of these fields, there are fields for 'Date', 'M.I.', 'Apartment/Unit', and 'ZIP Code'. In the top right corner of the form, there is contact information for the 'Full Business Portal' located at '44 Miller Place, Big Falls, NJ 09542', with email 'info@FBP.com' and website 'www.bigbusinessportal.com'. The hand is currently writing in the 'Last' name field.

geographically and by occupational
series

**Critical elements for a
basketball player: dribble,
pass the ball, shoot baskets**

Excepted

compensation

qualified, hard
to fill positions

The US economy per these measures is
not planned, with no stipulations as to
scale or direction
